

PETra Configuration Options

PETra™

PET LIMS Software

PETra Configuration Options

Choosing the correct PET LIMS configuration is not a straightforward task, with so many different options, modules and services to choose from.

Having successfully installed PETra in various facilities around the world, LabLogic have created four off-the-shelf packages suited to a range of typical customer requirements.

PLEASE NOTE: The following packages have been created as a guide and can be changed to suit your individual requirements.
